Sarthak Sah

Data Analyst / Marketing

Mumbai, India | 79057 44714 | sarthaksah8239@gmail.com

Creative portfolio • LinkedIn • GitHub • AI projects

Data analyst with a creative approach to sales and marketing and knowledge of 30+ AI tools. Uses Python, SQL and Excel to turn data into insights and KPI dashboards. Experienced in AI model training, data validation and customer communication, with projects spanning analytics, websites, apps and visual content. A quick learner who combines analytical thinking with practical problem-solving.

SKILLS

Visual content	AI product visuals, carousels, brand posts, reels and short-form video.
AI and automation	AI-assisted websites and apps, automation fundamentals and output evaluation.
Technical	Python, SQL, Excel, Streamlit, FastAPI and RAG/LLM applications.
Business	Sales and Marketing, customer communication and workflow optimization.

PROJECTS

DataGPT AI Data Analyst Agent

Built an agent that turns business questions into Pandas queries, Plotly charts and GPT-4 insights. Added intent classification and an API-key-free Streamlit demo.

DocMind RAG Chatbot

Built a chatbot for PDF, DOCX and TXT files with source citations. Implemented text chunking, HuggingFace embeddings and FAISS retrieval, with optional GPT-4 answers.

ETL + BI Pipeline Python, DuckDB, Streamlit and SQL

Transformed raw CSVs into a DuckDB star schema and a five-tab BI dashboard with 15+ interactive charts covering revenue, product, cohort and regional analytics.

EXPERIENCE

Outlier AI AI Model Trainer — Freelance

Trained AI models using diverse datasets and preprocessed training data. Evaluated AI outputs to identify improvements and documented processes for consistent workflows.

Teleperformance Claims Specialist — Noida | Nov 2025 - Jun 2026

Reviewed claims, gathered client information and resolved complex issues with teammates. Identified rejection trends and compiled reports to support management decisions.

Prodigal Softech Data Annotation and Analyst — Mumbai | May 2025 - Aug 2025

Analyzed trends using Excel and SQL and built KPI dashboards for stakeholders. Cleaned and validated data to improve report accuracy and support decision-making.

EDUCATION

Bachelor of Technology in Computer Science — Jul 2026

Galgotias University, Noida
